

STAALMEESTER

PRODUCTIVITY, COST EFFICIENCY AND SERVICE TO THE FARMER.

JF 60 Woodchipper

- High quality chips produced by the JF 60 are suitable for use in heating, covering cultivated land and fields, in compost as pulp chips and for covering animal litter
- The discharge chute is adjustable -360°

- * Adjustable feed roller speed
- * Uniform chip size, adjustable for lengths of 3-13 mm
- * Two horizontally controlled intake rollers

The discharge chute can be folded up and latched. This makes road transport easy.

ORCHARDS

GARDENS

NURSERY'S

Made in Brazil

The JF 60 is durable and simple to maintain

- * PTO or Tractor driven
- * Electrically or diesel driven
- * On 3 point hitch or on wheels
- * Feed chute can be folded upwards
- * Rotor with 4 cutting knives allows for exceptional throwing power.

The JF 60 wood chipper is the machine for people who have use for a small durable chipper.

Changing of the knives takes about 10 minutes. The upper housing of the chipper folds up for easy access to the knives.

Also suitable for the making of high quality maize silage.

Can chop lucerne very finely - suitable for ostrich chicks.

Technical Specifications

Max cutting diameter	40 mm
Height	1100mm
Width	1600mm
Length	1700mm
Rotor diameter	530 mm
Total weight 3 point	440 kg
Wheel & Tyres	155x10/13
Intake Platform	2 rollers
Kw required	14-18 kw
Rotor speed	1300-1400 rpm
Number of knives	4
Output	5-8m ³ /H
