

# STAALMEESTER

PRODUCTIVITY, COST EFFICIENCY AND SERVICE TO THE FARMER.

## THM 100

High Performance Wood Chipper

- Large feeding tray with self feeding stop mechanism
- Mounted on three point with P.T.O.
- P.T.O. shaft with friction clutch
- Spring loaded intake roller to regulate the material intake

**PARK**

**GARDEN**

**COMPOST**

**MADE IN FINLAND**

The THM 100 is a robust and sturdy 3 point hitch mounted wood chipper for producing short uniform chips. The maximum infeed diameter is 100mm and can chip at a rate of up to 15m<sup>3</sup>/h. The feed chute is on the right hand side of the chipper, which enables the operator to work away from the intake feeder. The THM 100 features an adjustable chip length and is easily adjustable to suit your requirements.

The THM is suitable for making compost, chipping limbs and branches for orchards etc. Fitted with hardened cutting knives, the THM reduces wear and tear and is thus cost efficient when replacing spare parts.

#### TECHNICAL SPECIFICATIONS

MODEL	THM 100
INFEED	ROLLER
MAX CUTTING DIA	100 MM
NUMBER OF KNIVES	2
POWER REQUIREMENT	12-22kW
ROTORSPEED	1220 R.P.M.
P.T.O. SPEED	540 R.P.M.
WEIGHT	320kg
HEIGHT	1720MM
WIDTH	900MM
LENGTH	1590MM
OUTPUT	8-15M <sup>3</sup> /H
KW REQUIRED	22

#### OPTIONAL:

- ELECTRICALLY, PETROL OR DIESEL DRIVEN.
- WITH OR WITHOUT WHEELS.
