

STAALMEESTER™

PRODUCTIVITY, COST EFFICIENCY & SERVICE TO THE FARMER

SM 24 (5775) Hammer mill

Low cost milling at its most affordable

Designed to use 40% less power than competitors and outperforms all in it's class.

The SM 24 Hammer mill replaced the ever so popular 6116 IRS model.

The SM 24 Hammermill is a smaller, more compact designed version of our flagship 6776 multi-hammer mill.

With a flawlessly designed auger and rotor system, the SM 24 is the perfect hammer mill ensuring optimal performance for any agriculture or Bio needs.

The SM 24 features..

16 Hardened rods for hammers, and is fitted with cyclone for bag attachment

**Available in diesel, electrical and PTO models,
on wheels or on three point...**

Electrical

PTO

Specifications:
