PRODUCTIVITY, COST EFFICIENCY & SERVICE TO THE FARMER

# BGU log splitters

**BGU** **maschinen**  
WIR PRODUZIEREN IN DEUTSCHLAND

# THS 5 log splitter

**Beginner model for residential use and dependable quality..**

## Specifications:

**Electric motor drive:** 1.5 kW,  
**Voltage:** 230 V,  
**Splitting force:** 5 ton,  
**Log capacity:** max. 530 mm,  
**Dimensions (W X H X L):** 1150 x 480 x 360 mm,  
**Weight:** approx. 54 kg

User-friendly, two-hands safety control,  
Hydraulic operation by means of control valve,  
High performing electric motor,  
Maintenance free,  
Compact design and construction,  
Rubber grips and castor wheels for easy handling.

# Spessart Woody HS 7

User-friendly, two-hands safety control,

Stepless easy stroke adjustment by means of a rear adjustment rod,

Noise-less, very powerful electric motor (high power at low 1450 RPM),

Fully compliant to the applicable Work Safety Rules and the European EC-Safety Standards,

Manual setting of the table for splitting long logs (no other implements are required to remove the table)

**Handles wood up to 1.08 m length!**

Full cord log length can be easily handled on this machine by simply removing (flip over and then unhook) or sliding the intermediate table all the way down. In this asset, the machine is capable of handling logs of any kind of wood up to 1.08 m length.

## Specifications:

**Voltage:** 230 V or 400 V,  
**Electric motor drive:** 2.2 kW or 3,0 kW,  
**Splitting force:** 7 ton,  
**Ram stroke:** 520 mm,  
**Splitting capacity:** 550 / 750 / 1080 mm,  
**Total height, retracted pos.:** 1100 mm,  
**Total height, extended pos.:** 1600 mm,  
**Dimensions (W x L):** 500 x 750 mm,  
**Weight:** approx. 126 kg

# BGU HS 80/2 B log splitter

Tandem hydraulic pump for double splitting speed,

Automatic engagement of the second hydraulic pump,

Robust and maintenance free,

Two-hands operation system with ergonomic and light handles,

Rapid return stroke,

Manual setting of the table for splitting long logs (no other implements are required to remove the table),

High quality paint, scratch-proof and weather resistant powder coating,

Extreme stability and durability assured by sturdy own weight,

User-friendly, two-hands safety control,

## Specifications:

**Petrol engine drive:** Honda 3.7 kW,  
**Tank capacity:** approx. 1.8 litres,  
**Splitting force:** 8 ton,  
**Ram stroke:** 500 mm,  
**Splitting capacity:** 550 / 750 / 1080 mm,  
**Total height, retracted pos.:** 1100 mm,  
**Total height, extended pos.:** 1600 mm,  
**Dimensions (W x L):** 600 x 1000 mm,  
**Weight:** approx. 225 kg

**Perfect splitter for both short and full-cord log length,  
powered by petrol engine..**

**Accessories:** Splitting wedge & Cleaving wedge

# Spaltmeister SM 300

Two-stage hydraulic pump for increased ram forward speed (fast splitting cycle),

Automatic return cycle,

Standard rubber wheels for effortless handling,

Motor safety with voltage switch, standard,

Compact structure saves storage space,

Capable of handling even hard wood chunks by repeated splitting cycles,

High quality paint, scratch-proof and weather resistant powder coating,

Fully designed and manufactured in accordance with the EC safety Rules and Regulations,

User-friendly, two-hands safety control, Standard wheel arrangement.

**It runs fast without strain with a special slip-on 4-ways wedge easily adjustable up and down.**

in line splitting mechanism for extremely easy, safe and clean splitting. The horizontal splitting concept is a totally hands-free concept that allows convenient, fast and safe splitting of even larger chunks with no more handling or holding of the wood by hand.
